

The Forest Service, Humboldt-Toiyabe National Forest, Ely Ranger District, is preparing an Draft Decision Notice, Finding of No Significant Impact, Final Environmental Assessment, and Forest Plan Amendment for the **Ely Ranger District Wilderness Management Plan** in order to establish supplemental management direction that focuses on preserving wilderness character for all nine wilderness areas on the Ely Ranger District, including the BLM portion of Mt. Moriah, under a policy of non-degradation. The Humboldt National Forest Land and Resource Management Plan (LRMP) (1986) does not include management direction for the five USFS wilderness areas that were designated in 2006 White Pine County Conservation, Recreation and Development Act (WPCCRDA), and the management direction found in the LRMP for the four wilderness areas designated in 1989 is not adequate or specific enough to ensure the USFS is meeting the mandate of preserving wilderness character intended in the 1964 Wilderness Act. The BLM's Mt. Moriah Wilderness Management Plan was scheduled for revision in 2005.

The proposed action is to amend the wilderness management sections of the LRMP for the Humboldt National Forest, specific to the Ely Ranger District. The primary changes would be to the Standards and Guidelines for wilderness management found on pages IV-71 and IV-72 in the LRMP, as well as, subsequent sections (IV-137 through IV-195) pertaining to the management areas found within the Ely Ranger District, as well as, the Forest Plan Amendments 1 and 7 relating to the designation of the four Wilderness areas in 1989 and two Research Natural Areas in 1998. This alternative would establish standards and guidelines for the five wilderness areas designated in 2006.

The proposed action description, Final Environmental Analysis, Wilderness Management Plan, Forest Plan Amendment and other information are available for review at the Ely Ranger District and online at
